

Global Personals Case Study

Due to their expansion & re-branding, Global Personals, the on-line dating & friendship site owners, outgrew their previous premises and spotted their own 'match made in heaven' at Minton Place, Windsor.

The offices incorporated a stunning reception area, meeting room suite and breakout area as well as space for 135 workstations. CBS built additional offices and a boardroom and helped put their own stamp on the space for a more vibrant, dynamic feel.

The time-frame was very tight - 6 weeks from sign off to completion - and the schedule was complicated further when the worst winter in 30 years meant we had no access to site for 4 days!

Despite the challenges, we delivered a stunning environment on time and in budget.

When Global Personals first approached us for a few items of furniture for a handful of staff a decade ago, little did we predict that their continued rise would mean we would return to move them into a flag-ship 13,200ft² office space in central Windsor.

Marketing Manager, Mel Kirk commented:

"We wanted to personalise our surroundings to revitalise & reflect our business inspirations and the new look CBS delivered has done just that.

CBS carried out the work promptly and to the highest professional standards"
