

## Blandy & Blandy Case Study

CBS recently completed the re-design of the reception area for prominent Reading based solicitors, Blandy & Blandy LLP.

Working closely with Blandy & Blandy's Marketing & Office Managers, the CBS design team carefully crafted a scheme that would not only reflect the traditional image but also bring the public face of their Georgian building into the 21<sup>st</sup> century.

Their previous imposing reception desk has been replaced with a stunning bespoke unit which allows plenty of space for clients to sign documentation.

The waiting areas reflect the company's recent re-branding exercise and are now light, bright, welcoming and comfortable – instantly putting clients at ease.

Given their prominence and the number of visitors their town centre location receives, Blandy & Blandy were particularly keen to keep the programme as short as possible. CBS are proud to report that the entire refurbishment was completed with a down-time of only five business days.

Office Manager, Maria Moppett remarked:

*"CBS were professional from start to finish.*

*The designers were incredibly patient and put together some beautiful designs and the team were first class, finishing well within the time-scale."*
