

Vanco Case Study

When leading global Virtual Network Operator, Vanco placed their first order with CBS way back in 2003, little did any of us know how their relationship with CBS would develop to the stage of being selected to fit out their new 650 person offices in Brentford.

CBS tendered for and won the contract to supply wave workstations, storage, screens, task seating, meeting room, breakout and reception furniture for their relocation to 4 units totalling around 6,500ft² at Great West Plaza.

The entire project was installed in two phases to facilitate a smooth transition from Vanco's outdated and outgrown offices in Isleworth to the slick, airy space they are so justifiably proud of.

Group Administration Manager, David Bains said:

"Well done and thank-you to everybody from CBS who has worked with us throughout on this – it was a massive project, with tight deadlines, and it was achieved without a hitch.... And to think, we started this relationship 5 years ago with an order for a single chair!"
