

*At CBS the right relationship is everything*

## Knight Frank Real Estate Specialists

case studies

*"CBS ... our preferred supplier for office refurbishment."*

### Creating a fresh, new environment.

CBS have recently completed the latest in an on-going series of projects for real estate specialists, Knight Frank.

Although Knight Frank's marketing team have developed a corporate image for all nationwide and European sites, individual branch managers have a certain level of flexibility and independence when it comes to finalising the design.

The ultimate aim of the design is to create a fresh new environment with strong kerb appeal and the challenge for CBS is to adapt this design to a diverse array of buildings whilst still stamping each manager's individuality onto his own branch.

Recent projects have included the refurbishment of the offices in Guildford and Esher, the relocation of the Ascot branch from an out of town location to a former bank on the High Street, and the complete transformation of a former art gallery into a brand new branch in the busy market town of Henley-on-Thames.

As a result of these successful projects CBS has been appointed as preferred supplier for all new branches and refurbishments.

**Marketing Manager, Margaret Emmens** commented:

*"CBS have proved themselves to be a reliable team, more than capable of exceeding the expectations and demands of our busy branch offices."*
