

*At CBS the right relationship is everything.*

## Parity Case Study

case studies

*"Flexibility is the key."*

Having worked with us for many years, Parity, the IT & Business Services company, again chose CBS to supply new furniture at the Wimbledon and Belfast offices.

The Wimbledon site required workstations and associated storage plus meeting room, director's office and break-out furniture to be delivered to a high street location and installed to tight deadlines - all while the fit out contract was being completed.

The Belfast site required yet more careful planning with all furniture, seating and storage-wall units being shipped over from the mainland and installed by local fitters under supervision from our Installations Controller, Jamie McLaughlin.

Both projects demonstrate how, with careful planning from the CBS team, installations can be smoothly and effectively delivered on time, throughout the UK.

Property Manager, Viv Donner said:

*"CBS proved they can work efficiently even with difficult site constraints. I was particularly impressed with the flexibility of their installation team."*
