

At CBS the right relationship is everything.

Salmon Case Study

case studies

"CBS handled the entire project very effectively from start to finish."

Having previously worked with CBS in maximising the capacity of their Watford offices, e-business experts Salmon approached CBS when continuing expansion meant relocation was required.

Having identified a landmark building close to the town's railway station, Salmon selected a team to work with CBS's designers to create the correct layout and ambience for the new environment.

With a strong emphasis on the customer facing areas, CBS helped ensure the new space correctly represented Salmon's business ethos whilst ensuring their staff were provided with a light, bright, well-planned office.

Comfortable with their choice of fit-out contractor, Salmon also chose CBS to provide new furniture items and carry out the entire relocation project, all on time and on budget.

Financial Director Mike Pring said:

"CBS handled the entire project very effectively from start to finish. Our CEO's reaction on seeing the new space was to say "awesome office" and I think that sums up how we all feel about it."
